

ABOUT US

GET Solution Technology Co., Ltd has established by the movement of the Vietnam mechanical industry which is gradually integrating with the world mechanical industry.

Particularly in the design and machining of the precise mechanical part, the limitation of equipment as well as engineering and technical capacity are hindering the development of domestic mechanical enterprises.

GET Solution Technology Co., Ltd was born with the inheritance of the customer base and the experience of the sales team from the mechanical tool trading company GET TOOL VIETNAM. Carry on the mission of solving the needs of customers. So GET always think that solving the needs of customers is the motto of the business. Therefore, always provide the most useful and fastest technical services to customers.
